Commissioner Abernathy:

Dear Mr. Powell and Commissioners,

Thank you for all you have been doing to curb programs displaying violence on TV.

My husband and I would urge you to be even more judicious and further protect the children from the obscene and violent content...even in cartoons! So many studies have been done on the visual impact on the mind/ parents know to carefully monitor; however, we need more of a wholesome selection to replace the garbage. So continue to clean up the programing.

Sincerely,

Mrs. Muriel J. Tkach, RN

Commissioner Abernathy:

As a parent of a teenager and a middle school teacher, I would ask that you limit the violence being shown on television. Children are watching TV later without parent supervision or guidance and many believe a lot of what they see to be real and happening as they view it, even at an older age. Without guidance from parents many of them do act on what they see in playful ways which can escalate to more aggressive acts when the right circumstances present themselves. Television can still be entertaining while leaving much to the imagination. As an adult I enjoy programs like CSI, but I am able to separate the program from reality because I received the necessary guidance in my formative years. Television networks should work to educate the public about its programming. American society will be much safer if the television industry will practice restraint in what is allow in every home through the television. There are children rasing themselves and they do not understand self-control and restraint without direct instruction in these principles. Please rememeber our children as you make programming decisions and reduce the violence that is escalting in our entertainment industry.

Sincerely,

Patricia Loudermilt

I work in a public school and see the affects violence and obscene televison have on children. It's a totally different world than it was years ago. I also turn the television on very little and NEVER watch any of the shows that are on the main channels due to the fact that there is nothing worth watching. I have a granddaughter and it worries me that the children she will grow up with are watching the violence that the parents allow them.

Sincerely,

Rebecca J. Boehm

I really appreciate a venue to voice my opinion on the subject of violence on TV. I watch the PAX station as often as possible and watch old re-runs of other shows to avoid the violence on some of the new shows. When my grandchildren are in my house we watch videos and play station games to avoid some of the violence. I think there is too much negative influence on our children via the television. Please take these comments into consideration, and I am sure good family programs can be developed. Thank you

Sincerely,

Commissioner Abernathy:

Violence on Television has changed not only society but also our lifestyles in in our homes. We all knowIt that violence isn't just on television. But why add to the unsurmountable amount of trash that's at our kids disposal?

By the way, I'm not talking about the old cowboy or police type movies or the cartoons such as Tom & Jerry. That type of violence has some sanity to it. I'm talking about the kind of violence that is graffic in nature and desensitizes our kids to violent killings, brutalilty, cussing, etc.

You have been charged with a vital task. I hope you take it seriously and do what's in our kids best interest. Please don't allow any more garbage on our airwaves. Our kids deserve better! Thanks!
